

Snapper 的基本概念

内容

本文介绍了 Snapper 的基本概念。Snapper 是用于创建和管理 Btrfs 文件系统快照的一款工具。

原因

本文概述了 Snapper、该工具支持的界面和主要用途，并介绍了 SUSE Linux Enterprise Server for SAP Applications 中快照的默认设置。

工作量

了解 Snapper 及其默认设置最多需要 20 分钟时间。

要求

- root 或 sudo 特权
- 需要安装 Snapper。SUSE Linux Enterprise Server for SAP Applications 上默认会提供该工具。
- 大小至少为 16 GB 的根分区 (/)。根分区的大小因产品而异。我们强烈建议使用 50 GB 或更大空间的根分区。

注意

本文是 Snapper 相关系列文章的第一篇。在后续文章中，我们将介绍常见使用情形，例如撤消更改、回滚系统、手动创建和管理快照、自动清理快照等。每篇文章都以前几篇文章介绍的知识为基础，帮助您逐步加深对 Snapper 工具的了解。

出版日期：2026 年 04 月 23 日

目录

- 1 Btrfs 子卷和快照的基本概念 3
- 2 什么是 Snapper? 3
- 3 Snapper 的默认设置 4
- 4 更多信息 8
- 5 法律声明 8
- A GNU Free Documentation License 8

1 Btrfs 子卷和快照的基本概念

Btrfs 子卷是物理分区中可单独挂载的文件系统。Btrfs 文件系统上默认会设置子卷。Btrfs 中的快照是一种可与其他子卷共享数据的子卷。它们是使用 Btrfs 的写入时复制功能创建的，因而创建速度快，并且占用的磁盘空间极少。快照可用于捕获文件系统在特定时间的状态，并在需要时回滚到以前的某个状态。

Btrfs 子卷自身具有独立的文件和目录层次结构。与在块级别运行的 LVM 逻辑卷不同，Btrfs 子卷基于文件区块运行。快照也被视为子卷，用于容纳原始子卷的初始内容。子卷显示为目录，可以像对任何其他目录一样操作，包括将其重命名或移动。

子卷的主要用途之一是在快照中明确包含或排除。使用快照回滚系统时，需要确保在回滚期间不会丢失或重写数据（例如用户的主目录、Web 和 FTP 服务器内容或日志文件）。可以通过从快照中排除某些 Btrfs 子卷来实现此目的。有关详细信息和排除的子卷列表，请参见第 3.3 节“从快照中排除的子卷”。

2 什么是 Snapper?

Snapper 是一款可帮助您创建和管理文件系统快照的工具。文件系统快照可用于保留文件系统在某个时间点的状态副本。Snapper 可以创建和比较快照，从一个快照还原到另一个快照，并支持自动快照时间线。Snapper 从不修改快照的内容。

Snapper 的标准设置旨在实现系统更改的回滚。但是，您也可以使用它来创建用户数据的磁盘备份。Snapper 之所以具有此功能，是因为它使用了两种类型的文件系统：

- Btrfs：适用于 Linux 的“写入时复制”文件系统，其本身支持子卷的文件系统快照。
- 采用 XFS 或 Ext4 格式的精简配置 LVM 卷。

注意

您也可以从 [Btrfs 快照引导](#)。

2.1 Snapper 有哪些功能?

Snapper 提供了命令行界面，供您创建、删除和比较快照，以及撤消在快照之间所做的更改。

您可以使用 Snapper 执行以下任务：

- 撤消 zypper 所做的系统更改。
- 通过先前的快照恢复文件。
- 从快照引导以执行系统回滚。
- 在正在运行的系统中手动创建和管理快照。
- 自动执行快照清理。

2.2 创建快照

创建快照时，快照与原始点都会指向文件系统中的同一个块。因此一开始时快照并不占用额外的磁盘空间。但如果修改了原始文件系统中的数据，则会复制已更改的数据块，同时将旧的数据块作为快照保留。因此，快照就将占用与已修改数据相同的空间。所以久而久之，分配给快照的空间便会不断增长。因而，从包含快照的 Btrfs 文件系统删除文件可能**无法**释放磁盘空间。

注意：快照位置

快照始终存放在创建快照的那个分区或子卷中，而无法将快照存储到其他文件系统中。

因此，包含快照的分区需大于不包含快照的分区。确切的空间大小在很大程度上取决于要保留的快照数量以及数据修改量。按照以往经验，应为分区分配两倍于一般情况下使用的空间。为了防止磁盘上的空间耗尽，系统会自动清理旧快照。

3 Snapper 的默认设置

本章介绍 Snapper 的默认设置。

Snapper 设置为系统更改的撤消和恢复工具。默认情况下，SUSE Linux Enterprise Server for SAP Applications 的根分区 (/) 使用 Btrfs 格式。如果根分区 (/) 足够大（约为 16 GB 以上），创建快照功能便会自动启用。默认情况下，在除 / 以外的分区上会禁用快照。

！ 重要

我们不建议在使用快照安装系统后手动激活快照。如果在安装系统后手动启用 Snapper，会导致 Snapper 采用不同于此处所述的设置。

💡 提示：检查根分区大小

根分区的大小因产品而异。要确定根分区占用的磁盘空间，请运行以下命令：

```
> df -h
```

3.1 Snapper 的默认设置

Snapper 仅会为根分区创建快照，并通过子卷来排除某些目录。有关排除的子卷的列表，请参见第 3.3 节“从快照中排除的子卷”。

为了避免根分区上的空间耗尽，Snapper 提供了自动清理快照的算法。用于时间线快照和编号快照（管理快照与安装快照对）的算法有所不同。可以根据以下条件配置清理行为：

- 数量限制：系统可以设置为当快照达到指定数量时自动删除旧快照。
- 期限限制：如果旧快照超过指定期限，则可以删除这些快照，同时每个时间段（每小时、每天、每月、每年）仍保留一定数量的快照。
- Pre 和 post 快照对：可以自动删除没有差异的 pre 和 post 快照对。

编号快照（包括管理和安装快照对）的清理通过参数来控制，例如

NUMBER_CLEANUP、NUMBER_LIMIT、NUMBER_LIMIT_IMPORTANT 和 NUMBER_MIN_AGE。NUMBER_LIMIT 的默认值为 2-10，NUMBER_LIMIT_IMPORTANT 的默认值为 4-10，表示仅保留最新的快照。

对于时间线快照，则根据要为每种类型（每小时、每天、每周、每月、每年）保留的快照数量来执行清理。例如，过去 24 小时的快照、过去 7 天的第一个每日快照、过去 12 个月当月最后一天创建的第一个快照，等等。参数包括 TIMELINE_CLEANUP、TIMELINE_MIN_AGE 和间隔参数（例如 TIMELINE_LIMIT_DAILY、TIMELINE_LIMIT_HOURLY 等）。

您可以随时回滚到现有快照，只需从相应的快照引导，然后将其启用。

注意：自动和手动禁用 Snapper

如果根分区空间小于 16 GB，则默认会禁用上述自动创建快照的功能。在这种情况下，您可以手动创建快照。请时刻留意可用的磁盘空间。

要在根分区足够大的情况下禁用自动创建快照的功能，请在安装过程中的分区设置步骤中手动禁用快照。

3.2 根分区上的 Snapper

当 Snapper 配置为在根分区上运行时，默认会排除每个 Btrfs 子卷。

每个分区或 Btrfs 子卷都有一个专用的配置文件用于定义 Snapper 的默认行为。这些配置文件位于 /etc/snapper/configs/ 下。

3.3 从快照中排除的子卷

快照的主要使用情形是将系统回滚到以前的状态。因此，对某些子卷（目录）禁用了截取快照功能。

以下列表包含从快照中排除的目录。您的系统中不一定包含以下所有目录，具体取决于您的产品和体系结构。

/boot/grub2/i386-pc、/boot/grub2/x86_64-efi、/boot/grub2/powerpc-ieee1275、/boot/grub2/s390x-emu

不能回滚引导加载程序配置。上面列出的目录是架构专属目录。前两个目录位于 AMD64/Intel 64 计算机上，后两个目录分别位于 IBM POWER 和 IBM Z 上。

/home

如果 /home 不在独立的分区中，则会将该目录排除，以免在回滚时丢失用户创建的数据。

/opt、/usr/local

手动安装第三方产品时，会使用这些目录。Snapper 会将这些目录排除，以免在回滚时卸载这些安装的内容。

/srv

包含 Web 和 FTP 服务器的数据。排除此目录是为了防止在回滚时发生数据丢失。

/tmp

包含临时文件和缓存的所有目录都会排除在快照范围之外。

/var

此目录包含许多变量文件（包括日志、暂时缓存、/var/opt 中的第三方产品），是存储虚拟机映像和数据库的默认位置。因此，创建此子卷是为了从快照中排除所有这些变量数据，且已对此子卷禁用“写入时复制”。

/run

此目录包含应用程序运行时数据，并会从快照中排除，以缩减快照的大小并避免包含潜在的敏感信息。

提示

子卷列表因产品而异。要了解 / 下创建了哪些子卷，从而确定从默认快照行为中排除了哪些目录，请运行以下命令：

```
> sudo btrfs subvolume list /
```

注意：为什么会存在空间限制？

创建快照时，不会创建物理数据副本。快照仅包含指向相应数据块的指针。只要快照与当前系统保持一致，便几乎不会占用任何额外的磁盘空间（它包含的元数据除外）。但是，如果系统上有文件被修改，原始数据将记录在快照中。随着时间的推移，会累积更多更改，并且快照不再与实时系统保持一致，快照的大小就会相应地增加。

为防止磁盘被塞满（因此导致系统无法运行），我们建议使用最小的根文件系统大小。所需的大小取决于系统使用情况：

- 快照的创建频率
- 快照保留的时长
- 系统上更改发生的速率

总而言之，快照越多，它们的保留时间越长，系统更改地越频繁，根分区就需要越多的空间。

A GNU Free Documentation License

Copyright (C) 2000, 2001, 2002 Free Software Foundation, Inc. 51 Franklin St, Fifth Floor, Boston, MA 02110-1301 USA. Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

0. PREAMBLE

The purpose of this License is to make a manual, textbook, or other functional and useful document "free" in the sense of freedom: to assure everyone the effective freedom to copy and redistribute it, with or without modifying it, either commercially or non-commercially. Secondly, this License preserves for the author and publisher a way to get credit for their work, while not being considered responsible for modifications made by others.

This License is a kind of "copyleft", which means that derivative works of the document must themselves be free in the same sense. It complements the GNU General Public License, which is a copyleft license designed for free software.

We have designed this License to use it for manuals for free software, because free software needs free documentation: a free program should come with manuals providing the same freedoms that the software does. But this License is not limited to software manuals; it can be used for any textual work, regardless of subject matter or whether it is published as a printed book. We recommend this License principally for works whose purpose is instruction or reference.

1. APPLICABILITY AND DEFINITIONS

This License applies to any manual or other work, in any medium, that contains a notice placed by the copyright holder saying it can be distributed under the terms of this License. Such a notice grants a world-wide, royalty-free license, unlimited in duration, to use that work under the conditions stated herein. The "Document", below, refers to any such manual or work. Any member of the public is a licensee, and is addressed as "you". You accept the license if you copy, modify or distribute the work in a way requiring permission under copyright law.

A "Modified Version" of the Document means any work containing the Document or a portion of it, either copied verbatim, or with modifications and/or translated into another language.

A "Secondary Section" is a named appendix or a front-matter section of the Document that deals exclusively with the relationship of the publishers or authors of the Document to the Document's overall subject (or to related matters) and contains nothing that could fall directly within that overall subject. (Thus, if the Document is in part a textbook of

mathematics, a Secondary Section may not explain any mathematics.) The relationship could be a matter of historical connection with the subject or with related matters, or of legal, commercial, philosophical, ethical or political position regarding them.

The "Invariant Sections" are certain Secondary Sections whose titles are designated, as being those of Invariant Sections, in the notice that says that the Document is released under this License. If a section does not fit the above definition of Secondary then it is not allowed to be designated as Invariant. The Document may contain zero Invariant Sections. If the Document does not identify any Invariant Sections then there are none.

The "Cover Texts" are certain short passages of text that are listed, as Front-Cover Texts or Back-Cover Texts, in the notice that says that the Document is released under this License. A Front-Cover Text may be at most 5 words, and a Back-Cover Text may be at most 25 words.

A "Transparent" copy of the Document means a machine-readable copy, represented in a format whose specification is available to the general public, that is suitable for revising the document straightforwardly with generic text editors or (for images composed of pixels) generic paint programs or (for drawings) some widely available drawing editor, and that is suitable for input to text formatters or for automatic translation to a variety of formats suitable for input to text formatters. A copy made in an otherwise Transparent file format whose markup, or absence of markup, has been arranged to thwart or discourage subsequent modification by readers is not Transparent. An image format is not Transparent if used for any substantial amount of text. A copy that is not "Transparent" is called "Opaque".

Examples of suitable formats for Transparent copies include plain ASCII without markup, Texinfo input format, LaTeX input format, SGML or XML using a publicly available DTD, and standard-conforming simple HTML, PostScript or PDF designed for human modification. Examples of transparent image formats include PNG, XCF and JPG. Opaque formats include proprietary formats that can be read and edited only by proprietary word processors, SGML or XML for which the DTD and/or processing tools are not generally available, and the machine-generated HTML, PostScript or PDF produced by some word processors for output purposes only.

The "Title Page" means, for a printed book, the title page itself, plus such following pages as are needed to hold, legibly, the material this License requires to appear in the title page. For works in formats which do not have any title page as such, "Title Page" means the text near the most prominent appearance of the work's title, preceding the beginning of the body of the text.

A section "Entitled XYZ" means a named subunit of the Document whose title either is precisely XYZ or contains XYZ in parentheses following text that translates XYZ in another language. (Here XYZ stands for a specific section name mentioned below, such as "Acknowledgements", "Dedications", "Endorsements", or "History".) To "Preserve the Title" of such a section when you modify the Document means that it remains a section "Entitled XYZ" according to this definition.

The Document may include Warranty Disclaimers next to the notice which states that this License applies to the Document. These Warranty Disclaimers are considered to be included by reference in this License, but only as regards disclaiming warranties: any other implication that these Warranty Disclaimers may have is void and has no effect on the meaning of this License.

2. VERBATIM COPYING

You may copy and distribute the Document in any medium, either commercially or non-commercially, provided that this License, the copyright notices, and the license notice saying this License applies to the Document are reproduced in all copies, and that you add no other conditions whatsoever to those of this License. You may not use technical measures to obstruct or control the reading or further copying of the copies you make or distribute. However, you may accept compensation in exchange for copies. If you distribute a large enough number of copies you must also follow the conditions in section 3.

You may also lend copies, under the same conditions stated above, and you may publicly display copies.

3. COPYING IN QUANTITY

If you publish printed copies (or copies in media that commonly have printed covers) of the Document, numbering more than 100, and the Document's license notice requires Cover Texts, you must enclose the copies in covers that carry, clearly and legibly, all these Cover Texts: Front-Cover Texts on the front cover, and Back-Cover Texts on the back cover. Both covers must also clearly and legibly identify you as the publisher of these copies. The front cover must present the full title with all words of the title equally prominent and visible. You may add other material on the covers in addition. Copying with changes limited to the covers, as long as they preserve the title of the Document and satisfy these conditions, can be treated as verbatim copying in other respects.

If the required texts for either cover are too voluminous to fit legibly, you should put the first ones listed (as many as fit reasonably) on the actual cover, and continue the rest onto adjacent pages.

If you publish or distribute Opaque copies of the Document numbering more than 100, you must either include a machine-readable Transparent copy along with each Opaque copy, or state in or with each Opaque copy a computer-network location from which the general network-using public has access to download using public-standard network protocols a complete Transparent copy of the Document, free of added material. If you use the latter option, you must take reasonably prudent steps, when you begin distribution of Opaque copies in quantity, to ensure that this Transparent copy will remain thus accessible at the stated location until at least one year after the last time you distribute an Opaque copy (directly or through your agents or retailers) of that edition to the public.

It is requested, but not required, that you contact the authors of the Document well before redistributing any large number of copies, to give them a chance to provide you with an updated version of the Document.

4. MODIFICATIONS

You may copy and distribute a Modified Version of the Document under the conditions of sections 2 and 3 above, provided that you release the Modified Version under precisely this License, with the Modified Version filling the role of the Document, thus licensing distribution and modification of the Modified Version to whoever possesses a copy of it. In addition, you must do these things in the Modified Version:

- A.** Use in the Title Page (and on the covers, if any) a title distinct from that of the Document, and from those of previous versions (which should, if there were any, be listed in the History section of the Document). You may use the same title as a previous version if the original publisher of that version gives permission.
- B.** List on the Title Page, as authors, one or more persons or entities responsible for authorship of the modifications in the Modified Version, together with at least five of the principal authors of the Document (all of its principal authors, if it has fewer than five), unless they release you from this requirement.
- C.** State on the Title page the name of the publisher of the Modified Version, as the publisher.
- D.** Preserve all the copyright notices of the Document.
- E.** Add an appropriate copyright notice for your modifications adjacent to the other copyright notices.
- F.** Include, immediately after the copyright notices, a license notice giving the public permission to use the Modified Version under the terms of this License, in the form shown in the Addendum below.
- G.** Preserve in that license notice the full lists of Invariant Sections and required Cover Texts given in the Document's license notice.
- H.** Include an unaltered copy of this License.
- I.** Preserve the section Entitled "History", Preserve its Title, and add to it an item stating at least the title, year, new authors, and publisher of the Modified Version as given on the Title Page. If there is no section Entitled "History" in the Document, create

one stating the title, year, authors, and publisher of the Document as given on its Title Page, then add an item describing the Modified Version as stated in the previous sentence.

- J.** Preserve the network location, if any, given in the Document for public access to a Transparent copy of the Document, and likewise the network locations given in the Document for previous versions it was based on. These may be placed in the "History" section. You may omit a network location for a work that was published at least four years before the Document itself, or if the original publisher of the version it refers to gives permission.
- K.** For any section Entitled "Acknowledgements" or "Dedications", Preserve the Title of the section, and preserve in the section all the substance and tone of each of the contributor acknowledgements and/or dedications given therein.
- L.** Preserve all the Invariant Sections of the Document, unaltered in their text and in their titles. Section numbers or the equivalent are not considered part of the section titles.
- M.** Delete any section Entitled "Endorsements". Such a section may not be included in the Modified Version.
- N.** Do not retitle any existing section to be Entitled "Endorsements" or to conflict in title with any Invariant Section.
- O.** Preserve any Warranty Disclaimers.

If the Modified Version includes new front-matter sections or appendices that qualify as Secondary Sections and contain no material copied from the Document, you may at your option designate some or all of these sections as invariant. To do this, add their titles to the list of Invariant Sections in the Modified Version's license notice. These titles must be distinct from any other section titles.

You may add a section Entitled "Endorsements", provided it contains nothing but endorsements of your Modified Version by various parties--for example, statements of peer review or that the text has been approved by an organization as the authoritative definition of a standard.

You may add a passage of up to five words as a Front-Cover Text, and a passage of up to 25 words as a Back-Cover Text, to the end of the list of Cover Texts in the Modified Version. Only one passage of Front-Cover Text and one of Back-Cover Text may be added by (or through arrangements made by) any one entity. If the Document already includes a cover text for the same cover, previously added by you or by arrangement made by the same entity you are acting on behalf of, you may not add another; but you may replace the old one, on explicit permission from the previous publisher that added the old one.

The author(s) and publisher(s) of the Document do not by this License give permission to use their names for publicity for or to assert or imply endorsement of any Modified Version.

5. COMBINING DOCUMENTS

You may combine the Document with other documents released under this License, under the terms defined in section 4 above for modified versions, provided that you include in the combination all of the Invariant Sections of all of the original documents, unmodified, and list them all as Invariant Sections of your combined work in its license notice, and that you preserve all their Warranty Disclaimers.

The combined work need only contain one copy of this License, and multiple identical Invariant Sections may be replaced with a single copy. If there are multiple Invariant Sections with the same name but different contents, make the title of each such section unique by adding at the end of it, in parentheses, the name of the original author or publisher of that section if known, or else a unique number. Make the same adjustment to the section titles in the list of Invariant Sections in the license notice of the combined work.

In the combination, you must combine any sections Entitled "History" in the various original documents, forming one section Entitled "History"; likewise combine any sections Entitled "Acknowledgements", and any sections Entitled "Dedications". You must delete all sections Entitled "Endorsements".

6. COLLECTIONS OF DOCUMENTS

You may make a collection consisting of the Document and other documents released under this License, and replace the individual copies of this License in the various documents with a single copy that is included in the collection, provided that you follow the rules of this License for verbatim copying of each of the documents in all other respects.

You may extract a single document from such a collection, and distribute it individually under this License, provided you insert a copy of this License into the extracted document, and follow this License in all other respects regarding verbatim copying of that document.

7. AGGREGATION WITH INDEPENDENT WORKS

A compilation of the Document or its derivatives with other separate and independent documents or works, in or on a volume of a storage or distribution medium, is called an "aggregate" if the copyright resulting from the compilation is not used to limit the legal rights of the compilation's users beyond what the individual works permit. When the Document is included in an aggregate, this License does not apply to the other works in the aggregate which are not themselves derivative works of the Document.

If the Cover Text requirement of section 3 is applicable to these copies of the Document, then if the Document is less than one half of the entire aggregate, the Document's Cover Texts may be placed on covers that bracket the Document within the aggregate, or the electronic equivalent of covers if the Document is in electronic form. Otherwise they must appear on printed covers that bracket the whole aggregate.

8. TRANSLATION

Translation is considered a kind of modification, so you may distribute translations of the Document under the terms of section 4. Replacing Invariant Sections with translations requires special permission from their copyright holders, but you may include translations of some or all Invariant Sections in addition to the original versions of these Invariant Sections. You may include a translation of this License, and all the license notices in the Document, and any Warranty Disclaimers, provided that you also include the original

English version of this License and the original versions of those notices and disclaimers. In case of a disagreement between the translation and the original version of this License or a notice or disclaimer, the original version will prevail.

If a section in the Document is Entitled "Acknowledgements", "Dedications", or "History", the requirement (section 4) to Preserve its Title (section 1) will typically require changing the actual title.

9. TERMINATION

You may not copy, modify, sublicense, or distribute the Document except as expressly provided for under this License. Any other attempt to copy, modify, sublicense or distribute the Document is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

10. FUTURE REVISIONS OF THIS LICENSE

The Free Software Foundation may publish new, revised versions of the GNU Free Documentation License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. See <https://www.gnu.org/copyleft/>.

Each version of the License is given a distinguishing version number. If the Document specifies that a particular numbered version of this License "or any later version" applies to it, you have the option of following the terms and conditions either of that specified version or of any later version that has been published (not as a draft) by the Free Software Foundation. If the Document does not specify a version number of this License, you may choose any version ever published (not as a draft) by the Free Software Foundation.

ADDENDUM: How to use this License for your documents

Copyright (c) YEAR YOUR NAME.

Permission is granted to copy, distribute and/or modify this document under the terms of the GNU Free Documentation License, Version 1.2

```
or any later version published by the Free Software Foundation;  
with no Invariant Sections, no Front-Cover Texts, and no Back-Cover Texts.  
A copy of the license is included in the section entitled "GNU  
Free Documentation License".
```

If you have Invariant Sections, Front-Cover Texts and Back-Cover Texts, replace the “with...Texts” line with this:

```
with the Invariant Sections being LIST THEIR TITLES, with the  
Front-Cover Texts being LIST, and with the Back-Cover Texts being LIST.
```

If you have Invariant Sections without Cover Texts, or some other combination of the three, merge those two alternatives to suit the situation.

If your document contains nontrivial examples of program code, we recommend releasing these examples in parallel under your choice of free software license, such as the GNU General Public License, to permit their use in free software.
